**CONSENT FOR TREATMENT OF A MINOR**

We, the parents or guardians, consent to the treatment/procedure rendered to our child or ward under general and specific instructions of my child's health care provider including but not limited to chiropractic, CranioSacral therapy, massage, sensory processing, or recreational therapy, as well as nutritional, homeopathic and herbal therapies and whole health counseling. We have had the mechanisms and risks of chiropractic adjustments based on pediatric anatomy and physiology explained to our satisfaction and authorize said treatment on the above-named child understanding the risks and incidence of deleterious effect. We recognize that even the gentlest therapies may potentially have complications in very young children or in those on multiple medications. Hence, the information we have provided our health care providers is complete and inclusive of all health concerns and medications, including over-the-counter medications, supplements, and herbs our child may be taking. With this knowledge, we voluntarily consent to the proposed procedures. We acknowledge that no guarantees of cure or improvement of condition have been made. We understand that we are free to withdraw consent and to discontinue treatment at any time. We attest that we are the legal parent(s)/guardian(s) and are designated and authorized to make healthcare decisions and consent to healthcare for this child.

Our practice is collaborative in nature. We often consult with each other and co-manage in order to best serve our patients.

You are responsible for informing our providers of any relevant information or changes that affect your child's health. Should privileged information be shared via text message or email, your provider will make every effort to maintain privacy but text messaging and emailing are not encrypted or HIPAA-approved means of communication.
